¹ *Minority Small Business and Capital Ownership Program* herein referenced as the *8(a) Business Development Program*.

This is the report on the U.S. Small Business Administration's (SBA) 8(a) Business Development Program as required by the Business Opportunity Development Reform Act of 1988 [15 U.S.C. §636(j)(16)(A) & (B)] and section 7(j)(16) (A) of the Small Business Act requires the following:

(16) (A) The Administrator shall develop and implement a process for the systematic collection of data on the operations of the Program established pursuant to paragraph (10).

(B) Not later than April 30 of each year, the Administrator shall submit a report to the Congress on the Program that shall include the following:

(i) The average personal net worth of individuals who own and control concerns that were initially certified for participation in the Program during the immediately preceding fiscal year. The Administrator shall also indicate the dollar distribution of net worth, at \$50,000 increments, of all such individuals found to be socially and economically disadvantaged. For the first report required pursuant to this paragraph the Administrator shall also provide the data specified in the preceding sentence for all eligible individuals in the Program as of the effective date of this paragraph.

(ii) A description and estimate of the benefits and costs that have accrued to the economy and the Government in the immediately preceding fiscal year due to the operations of those business concerns that were performing contracts awarded pursuant to section 8(a).

(iii) A compilation and evaluation of those business concerns that have exited the Program during the immediately preceding three fiscal years. Such compilation and evaluation shall detail the number of concerns actively engaged in business operations, those that have ceased or substantially curtailed such operations, including the reasons for such actions, and those concerns that have been acquired by other firms or organizations owned and controlled by other than socially and economically disadvantaged individuals. For those businesses that have continued operations after they exited from the Program, the Administrator shall also separately detail the benefits and costs that have accrued to the economy during the immediately preceding fiscal year due to the operations of such concerns.

(iv) A listing of all participants in the Program during the preceding fiscal year identifying, by State and by Region, for each firm: the name of the concern, the race or ethnicity, and gender of the disadvantaged owners, the dollar value of all contracts received in the preceding year, the dollar amount of advance payments received by each concern pursuant to contracts awarded under section 8(a), and a description including (if appropriate) an estimate of the dollar value of all benefits received pursuant to paragraphs (13) and (14) and section 7(a)(20) during such year.

(v) The total dollar value of contracts and options awarded during the preceding fiscal year pursuant to section 8(a) and such amount expressed as a percentage of total sales of (I) all firms participating in the Program during such year; and (II) of firms in each of the nine years of program participation.

(vi) A description of such additional resources or program authorities as may be required to provide the types of services needed over the next two-year period to service the expected portfolio of firms certified pursuant to section 8(a).

(vii) The total dollar value of contracts and options awarded pursuant to section 8(a), at such dollar increments as the Administrator deems appropriate, for each four digit standard industrial classification code under which such contracts and options were classified.

(C) The first report required by subparagraph (B) shall pertain to fiscal year 1990.

EXECUTIVE SUMMARY

This report is provided annually to Congress to determine and quantify the extent to which the Minority Small Business and Capital Ownership Development Program herein referenced as the 8(a) Business Development Program has assisted in the development of firms owned and controlled by socially and economically disadvantaged individuals. The Small Business Act requires the Small Business Administration to provide information of participants in the 8(a) Business Development Program during the immediately preceding fiscal year and the status of the business concerns that completed their 8(a) Business Development Program term during the immediately preceding three fiscal years.

Fiscal year 2010 marked the 42nd year of the SBA's 8(a) Business Development Program. During fiscal year 2010, a total of 8,444 businesses participated in the 8(a) Business Development Program. These firms made significant contributions to the Federal, state and local tax base and contributed an estimated 178,396 jobs to the Nation's economy. Between October 1, 2009, and September 30, 2010, a total of 734 new firms were certified to participate in the program.

Year-end financial statements submitted by the 8,444 firms participating in the program authorized by 15 U.S.C. § 637(a) during fiscal year 2010 reported total revenues exceeding \$21.7 billion. Resulting revenue from the program authorized by 15 U.S.C. §637(a) was \$9.4 billion or 43.4 percent of all active firms during FY 2010.

In order to assess the current business status of firms that completed the 8(a) Business Development Program in the past 3 years, SBA utilized Dun and Bradstreet (D&B) data to provide the information on the firms that completed the nine year program. Between October 1, 2006, and September 30, 2010 a total of 3,559 firms either exited or completed their program term in the 8(a) Business Development Program. A total of 1,882 firms exited the program through termination, voluntary withdrawal or graduation. The remaining 1,677 firms completed their 9 year 8(a) Business Development Program term¹. Of the 1,677 firms that completed the program, 1,418 remained in business; 57 had substantially curtailed operations; no firms were acquired by other firms, 91 had ceased business operations and no data was available for 111 firms to support the analysis.

A total of 1,677 firms completed the 8(a) business development 9 year program term in the last 3 years and reported revenues of more than \$7.1 billion dollars, and provided employment for approximately 56,050 persons .

¹ The term graduation refers to firms that complete their program term in less than 9 years and have achieved or exceed their program targets and goals. The term completion refers to firms that complete the 9 year program term.

PROGRAM INITIATIVES

- 1. Mission:** The purpose of the 8(a) Business Development Program is to assist eligible small disadvantaged business concerns compete in the American economy through business development. These small disadvantaged businesses are owned and controlled by socially and economically disadvantaged individuals, economically disadvantaged Indian tribes (including Alaska Native Corporations), economically disadvantaged Native Hawaiian Organizations and Community Development Corporations. The 8(a) Business Development Program fulfills this mission by providing a menu of business development resources, such as marketing, managerial, technical, and financial and procurement assistance.
- 2. Business Development:** The 8(a) Business Development Program promotes business development over a 9-year period. Each participant's progress is monitored and measured, and its developmental needs are identified through annual reviews of its business plan. Guidance is provided through the Service Corps of Retired Executives (SCORE), Small Business Development Centers (SBDC), and Women's Business Centers (WBC). In addition, through award of sole source and limited-competition contracts, the 8(a) Business Development Program provides a logical, systematic approach to market access and enterprise growth to small businesses owned and controlled by socially and economically disadvantaged individuals.
- 3. Management and Technical Assistance:** Under Section 7(j) of the Small Business Act,(15 U.S.C.§ 636(j)) the SBA provides specialized training, professional consultant assistance, and high-level executive development to eligible firms. This authority allows the SBA to provide assistance to 8(a) Business Development Program participants as well as to other small disadvantaged businesses, low-income entrepreneurs, and small businesses in labor-surplus areas or areas with a high proportion of low-income individuals. 8(a) certified firms also receive assistance through SCORE, SBDCs and the United States Export Assistance Centers (USEAC), as well as the mentor-protégé, joint venture, surety bond guarantee, and SBA loan programs.

NET WORTH OF NEWLY CERTIFIED PROGRAM PARTICIPANTS

15 U.S.C. 636(j)(16)(B)(i)

The average personal net worth of individuals who own and control concerns that were initially certified for participation in the Program during the immediately preceding fiscal year. The Administrator shall also indicate the dollar distribution of net worth, at \$50,000 increments, of all such individuals found to be socially and economically disadvantaged.

- 1. Average Personal Net Worth:** The personal net worth, for program purposes, is the net value of the remaining assets of an individual, after total liabilities are deducted from their total assets. During fiscal year 2010, 807 individuals were initially certified to participate in the 8(a) Business Development Program. Table I presents data on the personal net worth of the 807 individuals who used their eligibility to qualify 734 firms (more than one individual may use his/her social and economic disadvantage status to qualify a single firm). The average personal net worth of these individuals was \$242,932.

Individuals with a personal net worth ranging from less than zero dollars to \$50,000 constituted 17.8 percent of owners controlling firms that were certified; individuals with a personal net worth of \$50,001 to \$100,000 constituted 13.9 percent; and individuals with a personal net worth of \$100,001 to \$150,000 constituted 13.5 percent. Approximately 45.2 percent of the individuals owning and controlling firms that were certified had a personal net worth ranging from less than zero dollars to \$150,000. (See Table I)

- 2. Adjusted Average Personal Net Worth:** The adjusted personal net worth is defined as total personal net worth less the disadvantaged individual's equity in his or her primary residence and the individual's ownership interest in the applicant concern. In determining adjusted net worth the Small Business Act requires the SBA to utilize adjusted personal net worth, which excludes the equity of the personal residence and the business. In determining total adjusted personal net worth, the equity in the individual's primary residence and business is excluded. For the purpose of determining whether an individual may be considered economically disadvantaged, the average adjusted personal net worth is utilized. For FY 2010, the adjusted average net personal of individuals owning and controlling the firms initially certified during fiscal year 2010 was \$72,485.

Individuals with an adjusted personal net worth ranging from less than zero dollars to \$50,000 constituted 44.2 percent of owners controlling firms that were certified; individuals with an adjusted personal net worth of \$50,001 to \$100,000 constituted 21.1 percent; and individuals with an adjusted personal net worth of \$100,001 to \$150,000 constituted 12.6 percent. Approximately 77.9 percent of the individuals owning and controlling firms that were certified had an adjusted personal net worth ranging from less than zero dollars to \$150,000. (See Table II)

BENEFITS AND COSTS OF THE 8(a) BUSINESS DEVELOPMENT PROGRAM TO THE ECONOMY

15 U.S.C. § 636(j)(16)(B)(ii)

A description and estimate of the benefits and costs that have accrued to the economy and the Government in the immediately preceding fiscal year due to the operations of those business concerns that were performing contracts awarded pursuant to section 8(a).

During fiscal year 2010, a total of 8,444 concerns participated in the 8(a) Business Development Program. This figure includes all firms that entered and exited the program throughout the year. These firms provided employment for more than 178,396 people.

According to year-end financial statements submitted by participants in the program during the fiscal year ending September 30, 2010, total revenue exceeded \$21.7 billion. Total revenue generated from the program authorized by 15 U.S.C. 637(a) for all firms reporting was approximately \$9.4 billion, or 43.4 percent, of firms' total revenue. The balance of revenue for program participants, 56.6 percent, was earned from non-program sources. This is consistent with business development purpose of the program and enhances post program viability.

1. Benefits to the Economy and the Government

In principle, the benefit to the economy represents the incremental gain to disadvantaged groups from employment and income supported by 8(a) business development assistance as well as incremental gains in business sustainability. The following are areas in which 8(a) participants are contributing to the gross domestic product, the Nation's tax base, employment, and the individual wealth and well-being of all Americans.

- a. Long-term Business Development Efforts:** Since the inception of the 8(a) Program (1968) which was subsequently enhanced by P.L. 95-507 in 1978; P.L.100-656 in 1988, and further enhanced by P.L. 111-240 in 2010, there have been more than 1,182,434 8(a) contract actions, worth approximately \$169.6 billion. While these figures represent a very small percentage of total federal procurement awards and dollars, they have served as an important economic tool in the development of firms owned and operated by individuals who historically have had limited access to capital, credit and public/private contracting opportunities. Additionally, they have contributed to the growth and diversity of the Nation's industrial base creating much needed new jobs.
- b. Employment:** The 8,444 8(a) business development firms provided employment to an estimated 178,396 people during fiscal year 2010, representing an average of 21.13 employees per company. The 8(a) Business Development Program is a source of employment in all fifty states, including the District of Columbia, Guam, Puerto Rico and the U.S. Virgin Islands.

3. Costs to the Government

The SBA's Office of Business Development (BD), located in the Office of Government Contracting and Business Development, is responsible for the administration of the 8(a) Business Development Program. The following is a summary of the administrative and management and technical assistance costs of the 8(a) Business Development program during fiscal year 2010:

a. Program Administrative Costs

SBA program administrative costs consist of personnel, travel, supplies, training and normal business expenses. In fiscal year 2010, the 8(a) Business Development Program had actual costs of \$56.8 million, including \$5.3 million attributable to Headquarters, and \$51.5 million attributable to Field Operations (district offices).

b. Management and Technical Assistance

Section 7(j) mandates that the SBA obtain and maintain a cadre of qualified individuals and organizations that provide assistance to socially and economically disadvantaged individuals. For fiscal year 2010, Section 7(j) assistance had actual costs of \$5.5 million of which \$3.3 is attributable to contracts awarded for training and \$2.2 million associated with 7(j) program administrative expenses..

c. Advance Payments

There was no advance payments made during FY 2010.

EVALUATION OF FIRMS THAT EXITED THE 8(a) PROGRAM

15 U.S.C. 636(j)(16)(B)(iii)

A compilation and evaluation of those business concerns that have exited the Program during the immediately preceding three fiscal years. Such compilation and evaluation shall detail the number of concerns actively engaged in business operations, those that have ceased or substantially curtailed such operations, including the reasons for such actions, and those concerns that have been acquired by other firms or organizations owned and controlled by other than socially and economically disadvantaged individuals. For those businesses that have continued operations after they exited from the Program, the Administrator shall also separately detail the benefits and costs that have accrued to the economy during the immediately preceding fiscal year due to the operations of such concern.

The SBA utilized data provided by Dun & Bradstreet (D&B) to analyze the 1,677 firms that completed their 8(a) Business Development Program term between October 1, 2007, and September 30, 2009. Of the 1,566 firms for which data was available, 1,418 remained in business, 57 substantially curtailed operations. No firms were acquired by other firms owned and controlled by non-disadvantaged individuals, and 91 had ceased business operations. There was no data available for 111 firms that competed the program in prior years (See Table III). The total annual revenue of all exited firms reporting was approximately \$7.1 billion. Firms exiting over the immediately preceding 3 fiscal years provided employment for approximately 56,050 persons.

During fiscal year 2010, 375 firms were terminated from participation in the 8(a) Business Development Program. There are numerous reasons for termination; however, most were terminated due to their failure to comply with basic program reporting requirements. These termination actions ensured that only firms eligible for the program received program benefits. In addition, companies that ceased operations and failed to withdraw voluntarily were terminated. During fiscal year 2010, 235 firms elected to withdraw voluntarily and 13 firms were graduated early from 8(a) Business Development Program participation.

The reasons that caused former program participants to cease operations, like the reasons that cause any category of business to cease operations, are numerous. The reasons may include: economic conditions; retirement, illness or death of the owner; reduced federal contracting opportunities; a decision to sell the business or start a new business venture; or the pursuit of other professional interests. According to a new census data which stated that 69 percent of new employer establishments survive at least two years, and 51 percent survive five years or more.² It appears that program participants have a greater survivability rate than other small business within the first five years.

² U.S. Small Business Administration Office of Advocacy, U.S. Department of Commerce, Bureau of the Census, Business Dynamic Statistics. Note that the figures could be skewed slightly by the rare occurrence of new firms opening multiple establishments in their first few years, September 2009.

Please note that the statutory language cited above requests detailed information for firms that have exited the 8(a) Program for each of the three preceding fiscal years. To determine whether a firm had substantially curtailed business operations, SBA based this data on the number of employees at the time of program completion and compared that number to the current number of employees. If there was a significant decrease, greater than fifty percent, it was determined that the firm may have curtailed business operations.

COMPILATION OF FISCAL YEAR 2009 PROGRAM PARTICIPANTS

15 U.S.C. 636(j) (16) (B) (iv)

A listing of all participants in the Program during the preceding fiscal year identifying, by State and by Region, for each firm: the name of the concern, the race or ethnicity, and gender of the disadvantaged owners, the dollar value of all contracts received in the preceding year, the dollar amount of advance payments received by each concern pursuant to contracts awarded under section 637(a) of this title, and a description including (if appropriate) an estimate of the dollar value of all benefits received pursuant to paragraphs (13) and (14) and section 7(a) (20) during such year.

The ethnic heritage of the owners of the 8,444 firms participating in the 8(a) Business Development Program during fiscal year 2010 is as follows: Black American – 2,890 (34.2 percent); Hispanic American – 1,945 (23.0 percent); Asian Pacific American -1,028 (12.2 percent); Subcontinent Asian American - 866 (10.3 percent); Native American - 595 (7.0 percent); Native Hawaiian American - 13 (0.2 percent); Caucasian American - 542 (6.4 percent) and Other American – 247 (2.9 percent). Entities represented in the 8(a) Program include: Alaskan Native Corporations (ANCs) 220 (2.6 percent), Tribally Owned 85 (1.0 percent), Native Hawaiian Organizations 9 (.1 percent) and Community Development Corporations 4 (.1 percent). Men own 62.2 percent of the firms and 34.1 percent are owned by women. Of the active 8(a) firms in 2010, 3.7% of the population did not report a specific gender.⁴

⁴See Appendix B for detail of the region, state and contracts awarded.

TOTAL VALUE OF CONTRACTS AND OPTIONS AWARDED DURING
FISCAL YEAR 2010

15 U.S.C. 636(j)(16)(B)(v)

The total dollar value of contracts and options awarded during the preceding fiscal year pursuant to section 637(a) of this title and such amount expressed as a percentage of total sales of (I) all firms participating in the Program during such year, and (II) of firms in each of the nine years of program participation.

In fiscal year 2010, current 8(a) Participants reported total revenue of \$21.7 billion. Active participants derived 43.4 percent of their total revenue from 8(a) contracts. It should be noted that the full contract or modification award amounts might not be received during the fiscal year in which they are awarded. Also, the total award amount may differ from the revenue resulting from the contract. Therefore, the firms' revenue figures may not reflect the total contract and modification award amounts. (See Table IV for contract and modification dollars expressed as a percentage of firms' total revenue in each of the nine years of program participation.)
