

Hansen Qwik Lube

Business Friendly Wyoming + Exceptional Customer Service = Success

A family operated business, Hansen Qwik Lube, Inc. is owned by Brett and Cheryl Hansen. Entrepreneurship has allowed the Hansen family to control their future according to Brett. Brett obtained his experience in Minnesota and North Dakota as an auto dealer shop foreman and service manager.

The Hansen family looked at Wyoming as a state with a favorable business climate. Wyoming's business friendly nature and Brett's confidence and enthusiasm led them to move to Wyoming. The Hansen family looked at a building at 306 S. Wyoming Blvd in Mills. The building was established as a quick lube vehicle service facility. They wanted to purchase the building.

Obstacles for the Hansen family were the large down payment and trying to convince a lender to support their start up business. The SBA loan guaranty program helped the Hansen's purchase the building and start Hansen Qwik Lube, Inc. in July of 1993.

The Hansens believe in providing exceptional customer service. Exceptional customer service at Hansen Qwik Lube means providing the customer more than they expect in less time. This commitment to their customers has resulted in annual sales growth for the past decade. Hansen Qwik Lube has seven full time employees including two women. One employee has been with the business for five years and another for over two years.

Brett and Cheryl have four children under the age of eight. Family is a big part of the Hansen's life. Choosing to start their business in Wyoming and providing exceptional customer service has resulted in success for this family.

For more information about Hansen Qwik Lube contact them at 306 S W Wyoming Blvd, Mills, Wyoming 82644 or telephone them at 307-234-2770.
